CONNECT PROTECT and DELIVER

Everything you need to support your critical business infrastructure!

IndeServe helps New Zealanders keep their communication lines open, supplying and maintaining the core infrastructures that support the telecommunications and computer technologies that are critical to the timely conduct of business.

Whether it's a copper cable, fibre-optic or wireless networks, general electrical, lighting or comprehensive building power management systems, IndeServe offers a broad range of professional services that underpin network design, reliability, scalability and efficiency.

IndeServe's unique experience in multivendor, multitechnology, multiservice networks makes us the ideal choice for projects that require an in-depth, hands-on understanding of network planning and deployment.

- > Higher availability
- > Increased reliability
- > Greater manageability
- > Lower capital and operating costs

Choose from our comprehensive portfolio of services!

Needs Assessment: An IndeServe consultant will visit your site to collect data and understand the technical environment and wiring practices.

Structural Cabling Services: IndeServe certified technicians will design, install, maintain and support patch panels, patch cords and cable. Electronic as-built diagrams will be prepared and maintained as change occurs.

Fibre Services: IndeServe certified technicians will design, install, maintain and support optical networks in the backbone or to the desk including fibre connectors, patch cords, raceways and panels.

Wireless services: IndeServe certified technicians will design, install, maintain and support wireless solutions. From design to installation IndeServe has the expertise and equipment to ensure reliable and easy access wireless connections.

Cable Management Services: IndeServe technicians are experienced and skilled in protecting, routing and managing network cables and optimising signal integrity with a comprehensive portfolio of cable management, labelling and racking solutions.

Complementary Services: IndeServe's comprehensive services encompass complete solutions for data centres, storage area networks, central offices, campuses, wireless and WiFi networks and other high performance applications. Also, power to VoIP, WiFi access points and other IP Devices over the local area network.

Electrical Wiring Services: General electrical wiring services by registered electricians from large, full building fit-outs to small jobs such as installing a single power point. A Certificate of Compliance is issued for all completed jobs.

General and Emergency Lighting Management Services: IndeServe registered electricians carry out installation, repairs, planned maintenance and energy efficiency programmes and services to maintain all building lighting systems.

Electrical Switchboard Services: IndeServe registered electricians supply, install, repair and perform planned maintenance on all building switchboard and distribution infrastructure.

Preventative Maintenance Services: In order to keep your cabling and electrical infrastructure at optimum efficiency, IndeServe will schedule regular visits to perform prescribed maintenance and systems checks.

Facilities Management Services: The all-embracing nature of IndeServe's infrastructure services portfolio, our intimate knowledge of customer sites and systems and our specialised business processes and management, mean IndeServe can provide a comprehensive facilities management solution to meet any requirement.

The value of IndeServe

IndeServe is available to serve organisations of any size throughout New Zealand. Our range of infrastructure services is extensive, capable of solving the requirements of a small sole trader or large organisations with nationwide networks of business critical assets.

No job is too big or too small for IndeServe

You receive the personal attention of experienced and trained technicians and project managers. IndeServe frontline cabling technicians are certified to work with most of the popular cabling solutions. Only registered electricians perform our electrical services.

All IndeServe jobs are personally supervised by experienced project managers and/or team leaders.

Wherever you are in New Zealand, an IndeServe technician or registered electrician can be on your doorstep for same-day service delivery. We achieve this because we operate a chain of Service Centres throughout New Zealand.
